ABOUT SEDUS

# Who we are and what we do

Sedus Stoll AG was founded in 1871 and is one of the leading European manufacturers of office solutions. The product range includes seating furniture, such as swivel and visitor chairs, as well as office, conference and contract furniture – all “Made in Germany.”

The company headquarters is located in Dogern on the High Rhine in southern Germany. Another production site is in Geseke, North Rhine-Westphalia. Sedus is a company with a long tradition and more than 150 years of company history that has repeatedly set standards – in terms of ergonomics, manufacturing processes and sustainability. As a synonym for innovation, technology and aesthetics, Sedus constantly enriches the “office world” with new product ideas and contemporary concepts. Sedus puts a strong focus on current trends and changes in the world of work. New organisational structures and forms of work require flexible, aesthetic furnishings and custom-made solutions that enhance collaboration, communication and movement. We place a particular emphasis on ensuring the health and well-being of all who use our furniture.

With our solutions,  
we support people  
in expressing their  
genius at work.

COMFORTABLE SHELL CHAIR WITH A HOMELY LOOK

# Why se:lounge light

Innovative, easy to clean, sustainable:  
The PET felt seat shell  
is partly made of recyclate and is

**100%  recyclable**

**Two practical heights**

for the lounge area or  
for use at the table

The comfortable shell seat  
conveys **the character  
of a living room**

for example, in lounge areas, cafeterias  
and homely work nooks

**With or without?**

Armrests and backrest upholstery  
can be individually configured

**Integrated ergonomics**

with lumbar support and  
shaped seat upholstery

**3 base frame variants**

4-leg base, wood

Rotatable star base

Skid frame

Certification for se:lounge light

- Typical application areas for se:lounge light are:
- Lounge and reception areas
  - Hubs and intermediate areas in open-plan offices
  - Quiet zones and retreats
  - Canteens, bistros and cafeterias

se:lounge light

# Made for feel-good areas

New Work and numerous digital and mobile tools come with a lot of advantages – employees can move around more independently and freely choose their working space. Whether in a shared office or at home, in a co-working space or in the cafeteria, there are plenty of different possibilities. One thing, however, always remains the same: The dream of a workplace that is also a place of well-being.

Wherever working environments turn into feel-good areas, se:lounge light comes into play. The shell armchair unites design and comfort, radiates cosiness and creates a pleasant atmosphere from the very first moment.

The wooden base is available in three colours and gives the armchair an even more homely character

The model with solid wood base is available in two heights and three frame colours

The skid model is available in two heights and six frame colours

The star base model is rotatable and comes in six frame colours

**se:lounge light** in low relaxing height,  
for example, lounge and reception areas  
or in intermediate zones for informal meetings

FRAME VARIANTS AND SEAT HEIGHTS

# Perfectly placed

Whatever seating arrangement is required, se:lounge light can be flexibly used and is suitable for different situations thanks to its two seat heights.

The low seat height models are ideal for lounge and reception areas. Thus, relaxing is made easy, and short moments of waiting become a welcome time-out.

The table-height models are optimal for informal meeting areas or cosy team workstations. This way, exchange can take place at eye level. The aluminium base model is also rotatable, thus offering more flexibility.

for example, for meeting rooms  
or team workstations

## ERGONOMICS

# Shape and material ensure comfort

se:lounge light stands out both in terms of its appearance and its ergonomic properties. The PET felt seat shell is made as one piece and has an integrated lumbar support. The seat upholstery has a comfortable seat pan and is sloped at the front edge. Furthermore, the armrest wings create a lateral finish and allow the arms to rest in a relaxed position. Backrest upholstery is available as an option for additional comfort.

The seating angles also ensure an all-round pleasant sitting experience: At lounge height, the angle is 12°, at table height, it is 6° or 8.5° (depending on the base).

se:lounge light in lounge height

se:lounge light at table height

1. The ergonomically shaped upholstery with seat pan invites you to sit in comfort
2. The armrest wings provide lateral support and gentle pressure relief
3. The shape of the seat shell is made of stable and robust PET felt and has an integrated lumbar support
4. Optional backrest upholstery provides even more cosiness and comfort
5. The ergonomically sloped seat edge at the front supports comfortable sitting without creating pressure points
6. The shell chair is optionally available without armrest wings and is, therefore, more compact

FORM AND FUNCTION

# Focus on sustainability

With its flowing lines and organic shape, se:lounge light conveys harmony and lightness. The lounge chair unites comfort with design and, at the same time, addresses the aspects of sustainability and simplicity. The PET felt seat shell is particularly inspiring from an environmental point of view: On the one hand, it is made of recycled material and, on the other, it is 100 % recyclable.

The seat shell is made of PET felt (produced from shredded PET bottles) and is 100 % recyclable.

MATERIALS AND COLOURS

# Designed to feel good

Whether for the lounge area, meeting room or cafeteria: se:lounge light can be individually designed to match the surroundings. In addition to three base variants and two seat heights, we also offer a wide variety of colour combinations for the seat shell, upholstery and frame.

# Dressed for success

A harmonious working environment contributes significantly to well-being and productivity. Well-conceived furnishings, pleasant fabric and material combinations as well as the choice of colour accents are key factors for achieving this goal. Whether Smart Balance, Soft Being, Urban Living or Multi Creation – se:lounge light can easily be adapted to any of these colour schemes.

## Do you need support in planning and implementation?

The experts from the Sedus Workspace Design Team are looking forward to helping you design your modern smart office. From analysing the floor plan and designing the concept to choosing the colour from the Sedus Colour Cookbook – everything we do comes from a single source.

### Smart Balance

light, reduced, calm, structured,  
functional, technical

### Urban Living

comfortable, respectable, elegant,  
urban, intense, timeless

### Soft Being

gentle, calm, balanced,  
natural, inviting, regenerative

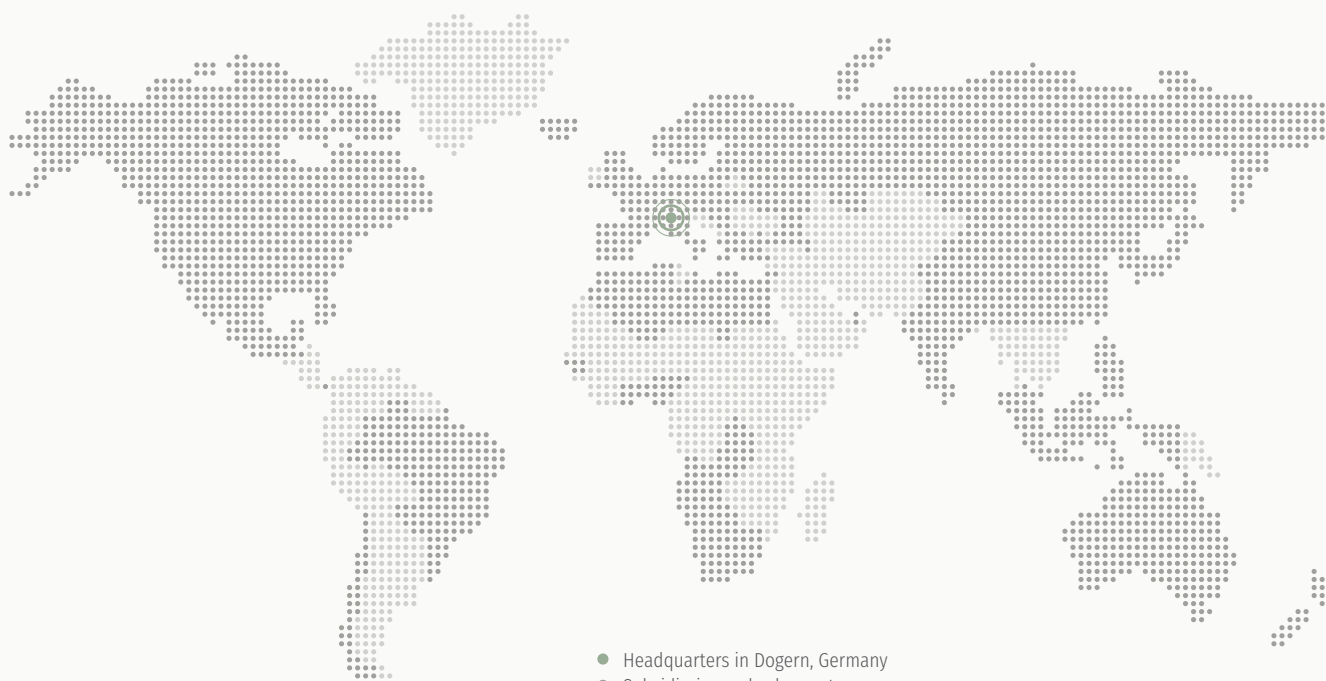

### Multi Creation

motivating, inspiring, creative,  
dynamic, active, open, free
